PACK MANUFACTURING COMPANY 10 YARD FIELD POTTER

The Pack Manufacturing 10 Yard Field Potter is a behemoth that brings the full potential of mobility to your outdoor growing operations. While most field operations lack the convenience and efficiency of indoor potting lines, the Pack Manufacturing 10 Yard Field Potter brings everything except the roof. The heavy-duty Pack Mfg 10 Yard Field Potter is engineered for speed and strength. Power through heavy mixes with the drag chain hopper and UHMW bed, carrying 2.5 times more media than a standard 4 Yard Potter. A 10 feet long take-off conveyor with 180° swivel feed comes standard on every Pack Manufacturing 10 Yard Field Potter. If you could stand to improve your field production numbers, then the Pack Manufacturing 10 Yard Field Potter was made for you.
