## PACK MANUFACTURING COMPANY 4 YARD FIELD POTTER

The Pack Manufacturing 4 Yard Field Potter is the mobile solution to potting in the field. While most indoor potting operations are focused on a central location and can be ergonomically designed for speed and efficiency, field operations often lack this luxury. The extremely heavy-duty Pack 4 Yard Potter brings that organization and efficiency to the field. A 7 feet long take-off conveyor with 180° swivel feed comes standard on every Pack Manufacturing 4 Yard Field Potter. Not only can these conveyors be operated manually, but the Field Potter can also be connected to other Pack Mfg. equipment. If you can stand to more than triple your field operation production, then the Pack Mfg Field Potter line has something for you.

**4 YARD FIELD POTTER**

**PTO PUMP**
