PACK MANUFACTURING COMPANY 1 YARD PNEUMATIC MUSHROOM BAGGER MIXER

The Pack Manufacturing 1 Yard Pneumatic Bagger is a tribute to the growing mushroom industry. As the number of small and medium sized mushroom farms has exploded, Pack Manufacturing worked with seasoned veterans of the industry. The result was the Pack Manufacturing Mushroom Bagger Mixer- a combination featuring the fully loaded 1 Yard Batch Mixer and the Pack Mfg Bagging Chute with foot pedal controls. This one piece of equipment allows mushroom growers to mix AND bag custom grow media- getting the benefit of two machines in one!

Every Pack Manufacturing Pneumatic Mushroom Bagger chute is custom made to fit your application. Your new machine will arrive calibrated and ready to plug in and go to work. Each press of the foot pedal will open the chute and fill each bag with the same volume of mixed material.
