**Pack Manufacturing Company
 PM1090 Water Tunnel**

The Pack Manufacturing PM1090 Water Tunnel is a watering system for any horticultural process. The PM1090 is constructed of stainless steel with a polycarbonate hood. It is designed to provide controlled watering capability for container plants. The PM1090 ensures an even water distribution and prevents overwatering and water waste by controlling the water flow. The Water Tunnel can be wired into a larger production line or used as a staging line for watering prior to loading onto trucks. The Pack Manufacturing PM1090 comes equipped with a 5 ft conveyor and stainless bearings for smooth service. Extra wide, extra tall, and hanging basket options are available to accommodate the largest containers.
