## PACK MANUFACTURING COMPANY PM10C FLAT FILLER

The Pack Manufacturing PM10C Flat Filler is an economical unit for smaller or new growing operations. In today's competitive world, businesses cannot afford to operate without automation. The compact, low-profile Pack Mfg. PM10C Flat Filler is a fast, hard-working, and dependable machine for filling plug and liner trays, pots, or baskets. Each Pack PM10C Flat Filler is equipped with a variable speed soil filling conveyor, fully adjustable compacting sweeps, a rotary brush, heavy drag chain to fill containers, and the side chute soil return system to deliver any excess soil media right back to the hopper. The PM10C boasts a 12" wide, 54" long conveyor and take-off.

**Adjustable Sweeper**

**Optional Mixer Combination for Increased Volume & Production**
