## PACK MANUFACTURING COMPANY PM10C FLAT FILLER

The Pack Manufacturing PM10C Flat Filler is an economical unit for smaller or start-up growing operations. In today's competitive market, businesses cannot afford to operate without automation. The compact, low-profile Pack Mfg. PM10C Flat Filler is a fast, hard-working, and dependable machine for filling plug and liner trays, pots, or baskets. Each Pack PM10C Flat Filler is equipped with a variable speed soil filling conveyor, fully adjustable compacting sweeps, a rotary brush, heavy drag chain to fill containers, and the side chute soil return system to deliver any excess soil media right back to the hopper. The PM10C boasts a 12" wide, 54" long conveyor and take-off. A 15" wide belt model is also available. All PM10C options have a 6" height clearance.

**Adjustable Sweeper**

**Optional Mixer Combination for Increased  
 Volume & Production**
