PACK MANUFACTURING COMPANY
3 YARD BATCH MIXER

Pack Manufacturing Batch Mixers are designed for uniform blending of a wide variety of materials, such as peat, bark, soil, sand, chemicals, and fertilizers. Our Batch Mixers have spiral ribbon blenders which pull material from the sides of the hopper toward the center. Simply add your mix ingredients to the easy access top safety lid and press start. The batch will be thoroughly mixed in just 3 - 5 minutes. Mixed media is easily removed from the center discharge hatch.

Pack Mfg. Batch Mixers use direct drive transmissions, which eliminate the problems of chain and sprockets.
