

**PACK MANUFACTURING COMPANY
ALUMINUM CONVEYORS**

The Pack Manufacturing Company's line of aluminum conveyors are an economical solution to material handling for numerous applications. The slim, low-profile design, lightweight construction, and solid frame make these conveyors an ideal solution to reducing strenuous labor demands in the workplace. Whether for a planting line or material handling, these conveyors are a low-cost alternative with high performance motors and sealed gearboxes to deliver years and years of dependable service. The Pack Manufacturing Company builds each conveyor in house with either standard lengths of 5', 10' 15' or 20', or we can build a conveyor to your custom specifications.
