THE PACK MANUFACTURING COMPANY

PIONEER FILLER®

The Pack Manufacturing Pioneer Filler® is the Best Economy Flat and Pot Filling system for all your container growing needs. The Pack Manufacturing Pioneer Filler® is designed with the beginning small business in mind. As you are pioneering your new horticultural venture, the Pioneer Filler® is there to make sure your new business has all the tools it needs for success. This machine is designed to AFFORDABLY produce 1500 flats per hour and 950 five-gallon pots per hour. The Pioneer Filler® is 100% Plug and Play, so as you build capital and expand your operations, your new equipment will automatically work with your existing Pioneer Filler®. The Pioneer Filler® works from a standard 230 VAC plug, so you will not need any expensive changes to your facility's infrastructure. If you are ready to go to work filling your containers and flats in the most efficient way, look no further for an affordable solution with consistent quality and vastly reduced labor requirements.

The Pack Manufacturing Company's Pioneer Filler® comes equipped with all the standard Pot and Flat Filler features included, and any premium or custom feature can be added. The Pack Manufacturing Company is offering all this with the lowest price tag in the industry!
