COMPANY
PROSPECTOR FILLER™
PREMIUM POT & TRAY FILLER
WITH INTEGRATED DRILL**

The Pack Manufacturing Prospecter Filler™ with Integrated Potting Drill is made to be a single machine for all your filling operations. Every aspect of the Pack Manufacturing Prospecter Filler™ has been fine-tuned to cut costs and increase user production. The Prospecter Filler™ is a low profile, compact filler with a 1 cubic yard hopper, reversible variable speed filling conveyor and soil feed, powered takeoff, powered pot brush, sweep, and includes an integrated potting drill. The Prospecter Filler™ hosts an easily operated touchscreen controller for quick setup and easy operation. The touchscreen displays the current number of pots drilled to track the number filled. The Prospecter Filler™ allows users to store setup parameters for fast and convenient transitions between containers with 10 storage recipe configurations standard. Simply select the setup configuration for the product you are running from the touchscreen control and begin production.

With the included integrated drill assembly, this premium machine also makes a very economical solution- this is the only machine you need for a perfect fill with every container. The easy to use touchscreen gives you full control over all your operations. All features can easily be toggled on and off with the push of a button, and setup has never been quicker. The Pack Manufacturing Prospecter Filler™ can be fitted with multiple drill sizes from 1.5” to 12” widths.
