TRAILBLAZER FILLER®

The Pack Manufacturing Trailblazer Filler® Economy Flat and Pot Filling system is designed as the next evolution in automated equipment with near universal applicability. The Pack Manufacturing Trailblazer Filler® is designed with the medium and larger growing operations in mind. The Trailblazer Filler comes equipped with all the tools your business needs to compete in both quality and quantity with any grower. Growers that have staked their claim and are ready to move to the next level will find the Trailblazer Filler® as the perfect tool. This machine is designed to AFFORDABLY produce 1500 flats per hour and 950 five-gallon pots per hour. The Trailblazer Filler® is 100% Plug and Play, so as you build capital and expand your operations, your new equipment will automatically work with your existing Trailblazer. The Trailblazer Filler® comes equipped with all the premium features included, making this machine versatile enough to accommodate any grow operation's filling processes. The Trailblazer Filler® provides amazing production capabilities that drastically reduce labor needs and increase production output.
