

PACK MANUFACTURING COMPANY
ComPACK® Mixer

Pack Manufacturing is excited to unveil the ComPACK™ Mixer. This deluxe mixing machine hosts a 4 Yard Bulk Hopper, chemical hopper, and a heavy-duty inline mixing head in a low-profile design. As the large volume media is pulled from the bulk hopper, additives are added from the chemical hopper at a predetermined rate. The mixing head quickly and efficiently combines the media and ejects it to the next stage in operations. Recipes can be created and saved for future use at the touch of a button. Standard models come with one chemical hopper (high or low volume), bulk hopper cross agitator, CNC milled water bars, adjustable legs, and 10 mix recipes. Additional additive hoppers can be added on request. The Pack Manufacturing ComPACK™ Mixer is the future of container production, capable of feeding the fastest potting or bagging lines. The ComPACK® Mixer is perfect for reconditioning media, adjusting pH, and incorporating fertilizer or insect control additives into a blended media.

ComPACK® Mixing Blades

ComPACK® Mixing Head

SPECIFICATIONS	OPTIONS	FEATURES
4 CUBIC YARD HOPPER	EXTRA CHEMICAL HOPPERS	BULK CROSS AGITATOR
ADJUSTABLE HEIGHT, 90" MIN.	CUSTOM HOPPER SIZE	CNC MILLED WATER BARS
201" LENGTH, 68" WIDTH	EXTENDED CONVEYOR	ADJUSTABLE LEGS
53" MIN. DUMP HEIGHT	EXTENDED RECIPE STORAGE	STORE 10 RECIPES
TOUCHSCREEN CONTROLS	BULK HOPPER SIDEBOARDS	CHEMICAL HOPPER
